### [Evaluation of the Effectiveness of the Board of Directors]

To further improve the functions of the Board of Directors, the Company has been conducting self-evaluation by each officer and analysis on the effectiveness of the Board of Directors since 2017. Effectiveness evaluations are conducted in ways that make it easy to solicit individual opinions, such as by appointing a third-party organization to have all Directors and Corporate Auditors respond to questionnaires and interviews individually.

From the questionnaire responses for fiscal year 2021, generally positive opinions were received in terms of the reflection of opinions of outside officers, supervisory functions of outside officers, and appropriate oversight of the nomination of candidates for Director through the Nomination and Compensation Committee. The Company, therefore, concluded that the effectiveness of the Board of Directors as a whole has been secured.

On the other hand, issues for further strengthening the functions of the Board of Directors and creating more lively discussions were shared. These include follow-up on the progress of management plans and the oversight of investment plans for human capital and intellectual property that are consistent with management strategies.

On the basis of this effectiveness evaluation, the Board of Directors of the Company will give due consideration to and respond to the issues promptly and continue to implement the PDCA cycle in order to further enhance the functions of the Board of Directors.

(Note) The Company is continuing to conduct effectiveness evaluations using the above methods in fiscal year 2022.
