- Domestic sales increased ¥3.4 billion (up 12.8%) to ¥29.8 billion.

Sales of agricultural machinery increased ¥1.1 billion as a whole as a result of the recovery from the impact of the Great East Japan Earthquake that occurred in March last year, mainly due to ¥0.7 billion increase of sales in Tohoku district and ¥0.2 billion increase of sales of OEM machinery. Sales of farming implements and parts also increased ¥0.3 billion due to the sales recovery in Tohoku district and others. In addition, there was a ¥2.0 billion increase in construction of facilities mainly caused by completion of large scale wheat dryer facility.

- Overseas sales decreased ¥1.7 billion (down 28.3%) to ¥4.2 billion

By region, sales in China decreased ¥1.4 billion mainly due to stagnant sales of rice transplanters caused by delayed announcement of the subsidy policy. While sales for Europe decreased ¥0.6 billion due to impact of the inventory adjustment of sales agents in France, etc., sales for Asia increased ¥0.2 billion and sales for North America and Oceania remained in line with the previous year. Also, sales of parts and others increased ¥0.1 billion.

- Net income increased ¥0.6 billion.

## 2) Comparison with the plan

## **II. Revision of the Business performance forecast for the fiscal year ending March 31, 2013**

- We have revised forecasts of the consolidated business performance for the second quarter (cumulative) of the fiscal year ending March 31, 2013 (April 1, 2012 – September 30, 2012) announced on May 11, 2012 as set out below.

**[Forecasts of the consolidated business performance for the second quarter (cumulative) of the fiscal year ending March 31, 2013]**

**(April 1, 2012 – September 30, 2012)**

	Previous Forecast	<b>Latest Forecast</b>	Variance		(Billions of yen)	
			Amount	%	2 <sup>nd</sup> Quarter FY2012	Variance Amount
Net Sales	80.0	<b>78.5</b>	(1.5)	(1.9)	72.4	6.1
Domestic	67.2	<b>67.7</b>	0.5	0.7	61.1	6.6

Ordinary Income	2.6	<b>2.6</b>	-	-	2.4	0.2
Net Income	1.8	<b>1.8</b>	-	-	1.8	-

### Reasons for Revision

With respect to net sales, we have made downward revision of ¥1.5 billion in total (domestic +¥0.5 billion, overseas - ¥2.0 billion) in anticipation of lower performance than the forecasts given in the previous announcement in light of recent orders received and the trend of foreign exchange rates, etc.

At each income level, we have kept the forecast unchanged with a prospect to secure forecasted income in spite of deteriorated profitability due to reduced net sales, that will be compensated by reduction in fixed cost and other expenses, etc.

With respect to Company forex rate after the second quarter under review that provided a base for the above business performance forecasts, we have assumed ¥78 against the US dollar (changed from ¥80) and ¥96 against the Euro (changed from ¥105). With respect to forecasts of the consolidated business performance for the fiscal year, we have not made revision. We plan to revise the forecasts whenever there will be such a necessity based on assessment of the situation hereafter.
