

## Notice

April 18, 2016  
ISEKI & CO., LTD.

### Regarding the effects of The 2016 Kumamoto Earthquake

ISEKI Group extends its sincerest condolences to those affected by the earthquakes that occurred in Kumamoto areas on April 14 and after.

Concerning the situation of the damages and effects discovered in ISEKI Group as of 8:30am today, we will inform you as follows;

#### **1. Iseki Kyushu Co., Ltd. (Sales company)**

Our branches and offices in Kumamoto and Oita prefecture will be operated as usual except in the areas where evacuation instruction or advisory was issued. So, if you find any damage on your machinery, please contact your nearest dealer.

As for the buildings, products or facilities in Iseki Kyushu headquarter and Kumamoto branch, we found them more or less damaged but have already started our action to restore them.

#### **2. Iseki-Kumamoto Mfg. Co., Ltd. (Factory)**

Although any buildings weren't collapsed, we discovered the buildings, products or facilities more or less damaged. So, we stop production until April 20 to grasp the full details while securing our safety in the continuing aftershocks followed by the main earthquake.

We will announce our next schedule as soon as the situation of the aftermath is cleared.

#### **3. Future actions**

Securing safety as the first priority, we continue to discuss and implement our action while our emergency headquarter collecting updated information as much as possible.

We will make continuous announcements of the situation in a timely manner.

Note: The above statements have been produced based on the information presently available. Please note that they may differ from the latest information.
